Welcome to the HackMaster BBS Listing. I, Toxic Phreak, have compiled this bbs listing because there wasn't a good one out there. This is a list of some of the better hack/phreak boards out there. Yes, I am the same person who did the bbs review a couple months ago. If you are looking for some great boards then give Pentavia, Midian, UnPhamiliar Territory I, and Blitzkrieg a call. Check these out and contact me on UnPhamiliar Territory I or Landfill for any comments on this list. The handle is Toxic Phreak remember. Sorry for any errors during the editing but I did this pretty fast. And these are the bbses in my dialing directory at the moment. I haven't called them all though so excuse any wrong numbers, disconnected numbers and wrong information.
