bill for THEIR expenditures... Ya, that's freedom and America in action. Be watching for some comprehensive files on TRW in the future from me...

LITTLE KNOWN TRW TRIVIA

~~~~~  
 Ah, here's just some trivial information about TRW and their operation, to be used at your discession (and hopefully in an evil way).

They are another one of those wonderful companies that has been around longer than you might believe. 1901 was when they began, manufacturing Energy products. Now they have diversified (much like Equifax) into Automotive products, space and defense products, credit reporting, and information processing. Their current new worth is 1.2 Billion dollars, with sales in the 8 Billion dollar range. They employ a total of 75,600 people, across over 400 locations. The current Chairman of the board is Joseph T Gorman.

In July, ComputerLan Corp purchased the customer service division, for \$110 million dollars, adding 13,000 customers. In March, TRW started TEMCO (TRW Environmental Management Co), a new subsidiary designed to manage the cleanup of nuclear wast sites. This portion of the company was started in order to offset the wain in defense-related sales. John B Mulligan (former vice president of the Raytheon Corps United Engineers and Construction unit) was named president of this division). Also in March, they signed a letter of intent with Czechoslovakia to produce autoparts for their automotive industry (Watch out for the next generation of the Yugo, hehe).

George H Heilmeyer (president and chief executive officer of Bellcore) was elected as a director, bringing the total number to 15.

CONCLUSION

~~~~~

Ah, I feel so much better now that I have done my little part to fuck some portion of the government disease. We all are given our little calling in life, and I feel everyone is destine to help to discredit the government in some way. Call what I say treason, or patriotism of a higher level, I want change, now, forever, and no authority. Now the only true freedom we have to look forward to is death, and I don't know about you, but that doesn't appear too appealing to me. Every step forward in our chosen paths leads us further from the instutionalized feelings and beliefs that surround and hamper us further and further every day.

Don't whine about life, do something about it... Call the systems below and voice your outrage about a political system that DOESN'T WORK. Take back what is owed to you be the society which deems us criminals.

Ok, now on to the immortal greetings, given in no peticular order to a few peticular people, who are peticular about being happy...

|           |                    |                   |                 |

| EREKOSE   | DIGITAL HITLER     | MAXIMUM OVERDRIVE | THE WHITE RIDER |
| THE CHIEF | GRANDMASTER RATTE' | /<LUDGE           | MIND WALKER     |

And always remember...

Don't kid yourself... The government IS a disease, WE are the cure.
