   - for asynchronous applications
   - at 300, 1200, 2400 and 9600 bps
   - with optional local error protection

Asynchronous Dial Service enables you to conveniently access the
SprintNet data network with a local telephone call from thousands
of U.S. cities and towns. For areas without local access in the
U.S., use SprintNet's In-WATS service.

In-WATS Service   Telephone Numbers

300-2400 bps   1-800/546-1000
9600 bps (V.29)   1-800/546-2000

Consult the Data Network Rate Schedule for In-WATS pricing.

Domestic Service Requirements

SPEED: MODEM TYPE:
 300 bps   Bell 103 compatible
1200 bps   Bell 212A compatible
2400 bps   V.22 bis compatible
9600 bps   Microcom V.29 compatible

Optional Local Error Protection

When using local error protection for speeds of 2400 bps or less,
your modem must be MNP compatible, or you can use MNP compatible
software in your PC. For V.29 9600 bps service your modem must
be MNP compatible.

Note: Dial the 2400 bps access number when using local error
       protection at 300, 1200 or 2400 bps.
