

INDEX

| | Paragraph |
|---------------------------|--|
| aerosol | 104, 106, 201, 204, 304-305, 307, 405 |
| alimentary exposure | 106 |
| anthrax | 201, 204, 308, 405 |
| antigen | 208 |
| bacteria | 105, 207, 403, 407 |
| biodetector | 202 |
| biological agent | 101-106, 201, 206, 303-308, 401, 403, 405, 411-413 |
| Biological Defense | 101 |
| Biological Warfare | 101, 209, 211, 212, 301, 303-304, 308, 401 |
| casualty management | 104, 408 |
| chemoprophylaxis | 307-308 |
| Chlamydia | 105, 403 |
| cohorting | 403 |
| collection | 205-207 |
| contamination | 106, 212, 303, 306, 402, 404 |
| dermal exposure | 106, 305, 402 |
| etiologic | 106, 208, 413, 415 |
| formalin | 207 |
| fungi | 105 |
| genome | 208 |
| immunoassay | 208 |
| immunofluorescence | 207 |
| incubation period | 104, 106, 308, 413 |
| infectivity | 104 |
| isolation procedures | 403 |
| labelling | 207 |
| lethality | 104, |
| mass casualty | 408-409 |
| microorganism | 101, 104-106, 204 |
| pathogenicity | 104 |
| polymerase chain reaction | 207 |
| primary contamination | 402 |
| quarantine | 403 |
| respiratory | 106, 204, 305, 405, 410 |
| Rickettsiae | 105 |
| sampling | 206-207 |
| sanitation | 212, 302-303 |
| secondary contamination | 402 |
| serum | 207, 307 |
| stability | 104 |

| | Paragraph |
|---------------------|--|
| supportive measures | 403 |
| therapy | 105, 301, 403, 410-411 |
| toxicity | 104 |
| toxin | 101-106, 201, 204, 208, 405, 407, 410, 412 |
| transmissibility | 104-105 |
| virulence | 104 |
| virus | 105, 403, 407 |
| yellow rain | 102 |
